

Lenz Moreton
Engineering & Construction Lawyers

Practical solutions from industry insiders

Lenz Moreton is a specialist construction and engineering law firm focused on providing innovative and effective legal solutions for the building and infrastructure industry.

As a lawyer and chartered professional engineer with practical experience both as a consulting engineer and civil contractor, Principal Chris Lenz brings his unique insight to each stage of your project.

This solid grasp of your practical commercial issues gives the firm a unique insight into ways to avoid disputes and the skills to resolve them when they arise.

Talk to the experts...

Chris Lenz, Principal

As a qualified Civil Engineer with hands on experience as a Design and Consulting Engineer and Construction Contractor, Chris Lenz has the expertise to rapidly understand your particular technical issues and provide practical solutions in as short a time-frame as possible.

Reg Kleidon, Special Counsel

Reg has extensive Construction Law and Commercial Litigation experience having previously run his own legal firm and practiced as a partner in a CBD law firm for over fifteen years. He has advised a wide range of construction clients throughout that time.

Ruth Kennedy, Solicitor

Ruth specialises in the area of Litigation. Ruth's strong investigative approach and empathetic style enable her to solve her client's problems quickly and effectively. Her tenacity in finding a resolution to even the most complex or challenging of situations is greatly appreciated by her clients.
